Who is Our Target Audience?

Industry Partners

Partners in the Industry can book the **Trainings-Zentrum Ultraschall-Diagnostik LS GmbH** to educate their team members, for support with research projects, and to develop training concepts.

Inexperienced, advanced and professionals from Application, Sales and Service will profit from the trainings.

Medical Doctors and Medical Students

Ultrasound-Diagnostic is utilized in almost all medical departments. The **Trainings-Zentrum Ultraschall-Diagnostik LS GmbH** offers a didactic, well-structured concept to enhance the learning experience.

System Installations

The training on ultrasound units is a core ability of the **Trainings-Zentrum Ultraschall-Diagnostik LS GmbH**. Instruction outside of the hectic, clinical environment assures the concentration of the users and guarantees an optimal learning experience.

Ultrasound Case Acquisition

In preparation of the Ultrasound Accreditation a certain amount of cases must be documented. The **Trainings-Zentrum Ultraschall-Diagnostik LS GmbH** offers supervision of case studies. All required media devices and a variety of ultrasound models are available. This supervised method ensures the quality of the acquired images and reports.

Guest Speaker

Requests from Institutions to present Ultrasound-Diagnostic Topics are a part of our offer. The topics of the presentations are ultrasound-specific, however they cover many medical disciplines.

Languages

All offers can be booked in **German** or **English**.

Locations

The trainings are offered in the CASTLE of THURNAU, Germany. Thurnau can be reached by car via the highway A9 and the highway A 70 from many locations in Germany. The ambience, conference-rooms and hotel within the castle are well suited for the trainings. The training facility is barrier-free.

SCHLOSS THURNAU

Marktplatz 1

95349 Thurnau
